

TM-series twin-shaft paddle mixing system

Technical information

- Production capacities between from 1 tonne/hour to 5 tonnes/hour
- Twin-shaft counter rotating paddle mixer
- Sizes ranges from 100 to 1000 litres
- Power requirement ranging between 5 kW and 20 kW
- Can be used to directly feed into down stream equipment i.e pellet mill

Applications

- High efficiency mixing of dry ingredients
- Can be used as stand-alone batching and mixing system
- Can be integrated with control system of processing plant

Features

- Fast mixing - less than 20 seconds per batch
- High accuracy mixing
- Quick discharge of less than two seconds
- Fully automated PLC control system
- Available in 3Cr12 steel or 304 stainless steel
- 24-hours local maintenance and support
