

MICRO FEEDER WITH BIN SWEEPER

Applications

- Accurately micro-dosing of high-value granular product
- Sweeper at bottom allows for feeding of difficult-flowing products
- Examples of products include spice, sugar, salt, vitamins & minerals, etc.

Technical information

- Manufactured from food grade stainless steel
- Sweeper at the bottom of the bin activates the flow of product
- Vertical sides of bin ensure no bridging of product
- Screw inlet and length of bin ensures that bin empties completely
- Servo motor screw drive controls gravimetric feeding
- One single-point load cell allows accurate gravimetric feeding

Features

- Vertical sides and large bottom of bin optimises bin volume and work well where height is a constraint
- Hygienic design with quick release and tool-less strip of feeder enables easy cleaning
- Tool-less removal of screw and servo motor
- Sweeper can also be incorporated into large-diameter storage hoppers/silos
