

HM-SERIES HAMMER MILLS

Applications

- Ideally suited for food and feed applications
- Milling of animal feeds, grains, legumes and other products
- Milling of extruded products to produce flours and porridges

Technical information

- Wide range of granulation possible.
- Production capacity dependent on granulation and product
- Power requirement ranging between 5.5kW and 90kW
- HM-series include: HM5, HM11, HM22, HM55, HM75, HM90, HM110

Features

- Screen replacements are performed within seconds
- Easy access for maintenance
- High tip speeds for increased throughput
- Fine granulation milling
- Comprehensive spare part inventory available
- 24-hours local maintenance support
- IOT enabled
